

ANNOUNCEMENT

AI/GI/CRV/IS 2007 welcomes CEIM as Conference Sponsor

OTTAWA – April 18, 2007 – Organizers of AI/GI/CRV/IS 2007, the combined conference for Artificial Intelligence 2007, Graphics Interface 2007, Computer and Robot Vision 2007, and Intelligent Systems 2007 are pleased to announce Le Centre d'entreprises et d'innovation de Montréal (CEIM) as a sponsor of the May 27-30 conference.

“The support of our sponsors is invaluable and we are delighted that CEIM has taken on an active role at AI/GI/CRV/IS 2007”, says Paul Johnston, President and CEO of Precarn Incorporated, one of the conference hosts. “As one of Canada’s leading business incubators, CEIM helps innovative companies during their start up and development by providing exceptional support throughout every stage of their evolution, whether strategy development, financial planning or commercialization. With their sponsorship of AI/GI/CRV/IS 2007, CEIM has taken a leadership role in the industry.”

To foster information exchange and interaction among delegates, AI/GI/CRV/IS 2007 will offer:

- **3 Scientific Tracks; 1 Collaborative R&D and Commercialization Track;**
- **9 Keynote Speakers, 10 Workshops and Panel Discussion;**
- **Highlights: Special Session on Environmental Applications of Intelligent Technologies;**
- **Panel: “Collaborative Research: What works, what doesn’t”;**
- **Panel: “The Road to Commercialization”;** and
- **120+ Posters, 40+ Technology Exhibits and 150+ Papers.**

Michael Davis, Senior Consultant, Industrial Technologies of CEIM says “CEIM is proud to be a sponsor of AI/GI/CRV/IS 2007, an event that showcases the best in new Canadian information and communications technology and brings together the people and resources necessary to match promising technologies with real application needs and develop them into successful business projects.”

About AI/GI/CRV/IS 2007

AI/GI/CRV/IS 2007, taking place May 27-30, 2007 at the Marriott Montréal Chateau Champlain, is a gathering of who's who of research and R&D commercialization in Canada. The combined conference is a culmination of the 20th Canadian Conference on Artificial Intelligence, the 33rd Canadian Graphics Interface Conference, the 4th Canadian Conference on Computer and Robot Vision, and the 17th Annual Canadian Conference on Intelligent Systems. Attendance is expected at over 500 attendees including academic researchers (professors & graduate students), industry researchers, government researchers, ICT companies, investors and end-users, and not only from Canada but the world over. Visit the AI/GI/CRV/IS 2007 at www.aigicrvis.ca.

About CEIM

CEIM is a business incubator dedicated to the start up and development of successful, technology businesses. CEIM offers customized management support, business and marketing strategy consulting and related business services, targeted on: identifying business projects with strong commercial growth potential; supporting these businesses with specialized, efficient and affordable services that respond to the specific needs and challenges that face start up companies; increasing technology business survival and success rate; and enhancing entrepreneurial and economic development. CEIM, the leading incubator in Québec, works with entrepreneurs in information technology, telecommunications, multimedia, industrial technologies, life sciences and bio-agrobusiness.
